Multipurpose and wardrobe cabinets

Locking system

Key management for the E-locks

For programming the E-locks with PIN code and RFID, a programming key is required for each hall or facility. With this programming key, 1 to 6 management keys can be registered. Emergency power supply, in case of ignoring the warning signals, is possible with both the programming key and the management key.

Application	User key	Management key	Programming key
Operation of the lock	X	X	X
Master key function		X	X
Inspection function		X	X
External power supply		X	X
Assignment of management keys			X
Assign user keys or transponders (for personal use only)		X	
Setting lock function			X
